1. Introduction

Yuktihub Technologies LLP, ("we", "our", "us") provides **YuktiAuth**, a Single Sign-On (SSO) solution that enables users to authenticate using third-party identity providers or email/mobile-based authentication.

We respect your privacy and are committed to protecting personal data processed through YuktiAuth. This Privacy Policy explains how personal data is collected, used, and safeguarded when you use the YuktiAuth service.

YuktiAuth is provided as part of an institutional service and is not intended for individual commercial use.

By using YuktiAuth, you acknowledge that you have read and understood this Privacy Policy.

2. Information We Collect

We may collect and process the following categories of information:

- **Account Information**
  Email ID or mobile number used solely for authentication purposes.
- **Authentication Data**
  OTP, TOTP, or authenticator-based verification data.
  Passwords are not stored.
- **Third-Party Identity Data**
  Basic profile information (such as name, email address, and identifiers) received from third-party identity providers when users choose OAuth-based login.
- **Usage and Technical Data**
  IP address, device and browser information, login timestamps, and authentication activity logs.

- **Cookies and Analytics Data**
  Information collected through cookies or similar technologies to improve functionality, security, and performance.

---

3. Purpose of Processing

Personal data is processed for the following purposes:

- To authenticate users and provide secure access to integrated applications
- To enable Single Sign-On using third-party identity providers
- To detect, prevent, and respond to fraud, abuse, or security incidents
- To maintain logs for security, auditing, and troubleshooting
- To communicate service-related updates or legally required notifications

Important Clarifications

- Authentication may be performed using OTP, TOTP, or mobile authenticator methods.
- OTP-based authentication may involve SMS or messaging services and related charges.
- TOTP or authenticator-based authentication may or may not involve charges.
- Authentication accounts do **not** provide full email inbox or messaging services.

---

4. User Rights

Subject to applicable law, users may have the right to:

- Access their personal data
- Request correction or deletion of personal data
- Withdraw consent where processing is based on consent
- Raise concerns or file grievances related to data processing

Requests may be submitted through the grievance redressal mechanism described below.

6. Third-Party Services Disclaimer

YuktiAuth may integrate with third-party identity providers such as Google, Microsoft, LinkedIn, Facebook, Apple, GitHub, or other supported services.

We are not responsible for the privacy practices or policies of such third-party providers. Users are encouraged to review the respective privacy policies of these providers before using third-party authentication options.

---

7. Cookies and Tracking Technologies

- YuktiAuth may use essential, functional, and analytics cookies to ensure service functionality and security.
- Users can manage or disable cookies through browser settings; however, some features may not function correctly if cookies are disabled.

---

8. Updates to This Privacy Policy

This Privacy Policy may be updated from time to time to reflect changes in practices or legal requirements.
Material changes may be communicated through appropriate means, such as email or system notifications.

Continued use of YuktiAuth after such updates constitutes acceptance of the revised Privacy Policy.
